

DANIEL MORSE, Jr.

MARCH 5, 1840.

Laid on the table.

Mr. S. W. MORRIS, from the Committee on Invalid Pensions, made the following

REPORT:

The Committee on Invalid Pensions, to whom was referred the petition of Daniel Morse, jr., report:

That they have examined the papers and documents presented by the petitioner, who alleges that he is suffering from severe rheumatism in one of his hips: that he is poor and unable to support himself by labor. His service on the northern frontier during a part of the last war is fully established, as also his present disability; but he entirely fails in establishing the fact that his disease was brought on by any unusual exposure.

The committee, therefore, report, that the prayer of the petitioner ought not to be granted.
